

NEW - Data and Report Packs for InstantAtlas Server

Oxford Consultants for Social Inclusion (OCSI) are offering a series of Data and Report Packs for GeoWise to support InstantAtlas Server customers manage and deliver their **Local Information Systems** more effectively.

OCSI are nationally recognised small area data experts who currently host and maintain the www.data4nr.net web site on behalf of the Department for Communities and Local Government.

What are the Data and Report Packs?

- Consistent, nationally published (England & Wales) sets of themed indicator data compiled at the lowest administrative geography available including time series to the most recently published data available. A more detailed description is provide on the reverse side of this leaflet.
- Data can be provided for customer-defined areas with a range of suitable comparators.
- High quality sample reports (Profiles and Data Views) based on specific Packs that can be replicated for a specific customer application.
- Data and Report Packs include appropriate, searchable metadata provided by the data suppliers and enhanced by OCSI.

What benefits do they offer?

- **Understand your key datasets at a local level**
The pre-defined reports provide the information and analysis you need to understand local patterns and trends. OCSI review all national indicators and add value at local level by creating suitable rates and ranks, and benchmarking against comparator areas
- **Make more effective use of your limited staff resources**
If you manage your local information systems with a small team, Data and Report Packs allow you to focus staff resources on support for local data, analysis, site administration, training and promotion.
- **Reduce the time it takes to set-up and refresh your data**
It takes time to populate sites with data and create a range of high quality outputs. Data and Report Packs allow you to fast-track this process. The optional refresh service can significantly reduce the time it takes to keep content up-to-date.
- **Reduce your risk of over-looking key national datasets**
Small teams find pulling together a wide-range of consistent, reliable national indicators from multiple sources is a significant challenge. Data and Report Packs allow you to tap into OCSI's extensive data expertise.
- **Benefit from economies of scale of a data and reports service**
OCSI are able to offer affordable pricing based on streamlining the creation and on-going refresh of Data and Report Packs for a significant number of customers.

How do I load a Pack into my Local Information System?

- Data and Report Packs can be supplied on CD in InstantAtlas ready-to-load format or a service can be offered to load data into a customers' system.
- You can receive refresh updates to Data and Report Packs at appropriate intervals on CD.

About OCSI

OCSI develop and interpret the evidence base to help the public sector and other organisations deliver better services to the public. We are a 'spin-out' consultancy from the University of Oxford team that developed the Indices of Deprivation, and since launching in 2003 have worked with over 60 public sector organisations at national, regional and local level.

Data and Report Packs

<i>Data and Report Pack</i>	<i>Description</i>	<i>Refresh Service: Data update frequency *</i>
Core starter pack	<p>Wide range of core datasets, based around the following themes:</p> <ul style="list-style-type: none"> • Demographics • Deprivation & low income • Economy & employment • Education & skills • Health & wellbeing • Housing • Crime • Environment • Access to Services 	Annual
Equality and diversity	<p>Understanding the outcomes for particular communities is critical in ensuring that local services are meeting needs.</p> <p>The pack provides data to benchmark the needs and performance of different equalities groups on a range of key indicators.</p>	Annual
Deprivation Plus	Key deprivation datasets, enabling comparisons between small areas across the country	One-off
National Indicator Set Plus	<p>Providing LA level data for each of the National Indicator Set indicators that have been released (with trend data where available).</p> <p>In addition, we will provide <i>proxy</i> datasets that are available for small areas, or for key equalities groups.</p>	Annual
Economic Monitor	Regular updates of key indicator trends, to monitor the impact of the recession locally and on-going small area economic patterns and trends	Monthly (some datasets updated quarterly)
Economic Assessment	<p>Recent legislation sets out the duty of all Local Authorities to carry out detailed economic assessment.</p> <p>The pack provides an essential starting point for the Economic Assessment Duty, bringing together the very wide range of nationally-published data that the core assessment should assess.</p>	Annual

* The Refresh Service is for data only.
